Dear Parent/s and Guardians,

Kidzania:

The trip to Kidzania yesterday was an amazing experience for our School Council. I only had what I'd read online as a guide, but it was far more. KidZania blends learning and reality with entertainment. During the 4-hour experience, children were able to independently explore over 60 real-life activities and test their skills in a variety of professions, such as activities ranging from doctor, dentist, and police officer to firefighter, actor and singer. The children took part in a choice of 'jobs' which earned them kidZos (KidZania currency) and then leisure activities such as the climbing and building, where they were able to spend their kidZos. When they earned 75 kidZos they were able to open a bank account and receive their very own bank card.

All this was done with children from several other schools, interaction, communication and teamwork.

Defibrillator:

I have been away from school a fair bit over the last two weeks, three days of which was attending a first aid at work course. One of the key elements was learning to use a defibrillator (fourteen members of staff across the two schools are now trained to use a defib). As a result, both schools now have a defibrillator on site for use in school and for the community. If a person does have a cardiac arrest, they have almost a 90% chance of survival if a defibrillator is used immediately, this is reduced to less than 5% if defibrillation is delayed by more than 10 minutes. A very important acquisition for all of us. Next step is to raise £600 for an external cabinet, so that it is accessible 24/7.

Parents' Evening:

Thank you to all the parents who attended parents' evening this week, it is always a pleasure to share your children's progress with you and areas of development. Wonderful comments and amazing support for the school, thank you.
